The Union County Clerk's Office is very excited to announce it has partnered with Fidler Technologies (Davenport, IA) to make requests for a certified/uncertified copies of marriage license, marriage application and dissolution records easier and convenient to obtain with the use of their Official Records Online (ORO) software for copy requests.

The ORO website is secure, user-friendly and designed for use on a computer, phone or tablet. Payment may be made at the time of the request with a credit card. The site lists the documents that are available to be requested and the fee. ORO automatically emails notifications to the Clerk's office for each copy requested. We will be able to receive the request and track its progress from beginning to end. The document fees are listed on the site. A convenience fee is charged for the service.

We have had many requests lately for birth and marriage certificates from people to obtain their "Real ID" from the secretary of state, and we hope that this new technology will expedite the process for anyone needing those records sent to them. We are proud to partner with Fidler Technologies, and believe that the process will be much easier for everyone now by simply accessing our county website to obtain their marriage, death or birth records.

As always, if you have any questions please don't hesitate to contact our office.

Thanks,

Lance Meisenheimer
